Ashall Projects

Ashall Projects have made a huge, positive impact to the skyline of Barrow in Furness in creating a 127 room Holiday Inn Express hotel complete with bar, restaurant and conferencing facilities and creating 22 new local jobs.

The hotel is modern and well finished throughout and offers itself well to local people, tourists and visiting professionals. The facilities are unlike anything else the town centre has to offer at the moment in terms of conference room and meetings space.

I have met with Mr Mark Ashall on a number of occasions and the company already have a proven track record of transforming redundant buildings and space in northern towns like Barrow.

Combined with the potential Future High Street Fund and Towns Deal plans, the companies previous and future planned projects are helping increase tourism to my constituency through the Great British Staycation Campaign.

I have visited the hotel on many occasions and have always been made to feel extremely welcome by the local team who are headed up by manager, Mark Winter.

Yours sincerely

Simon Fell
